All included changes from prior releases

Below is the complete description of all prior release changes that are included in this update.

Changes in 20.2

SCR	Description/Details
-----	---------------------

Component: Database

LIQ-7894	<p>when trying to add a new phone number of a different phone type but same phone number for the same account, the record will be written. I.e. if I have a cell phone of And I try to add a home phone than the home phone record should write to the phones_Master table.</p> <p>when trying to add a new phone number of a different phone type but same phone number for the same account, the record will be written. I.e. if I have a cell phone of (765) 555-1908 And I try to add a home phone of (765) 555 -1908 than the home phone record should write to the phones_Master table.</p>
LIQ-7783	<p>Client is reporting an issue with their Arizona accounts showing up before they should. Client is located on timezone Central Standard Time, which advanced one hour on March 8th, 2020.</p> <p>One of their collectors reported - "Latitude is bringing up accounts from Arizona when we push next queue. Arizona is now 2 hours behind instead of 1. So it should show up in the Collectors queue only after 10AM in client time.</p> <p>AZ zipcode now has time zone 8. After, we change the earlytimezone on the debtors table to equal 8, it worked for a while, but once new account was imported, they have to constantly run the update for AZ accounts in the debtors table. Client then reported that issue is still happening, even though it is not a new account. Per checking, whenever client's collector work on the AZ account on the queue, it defaults it back to the time zone of Arizona, which is 7</p>

Component: Liquid Center

LIQ-7929	<p>Updates the qlevel to 015 and then 599</p> <p>Needs to update the status as well when the qlevel is modified</p>
LIQ-7909	<p>When the only change in a Form is clearing a date, Save won't be enabled</p> <p>Fixed the bug in the system where clearing a date in a form won't enable the save field to reset the date</p>
LIQ-7902	<p>Collateral Repossession Screen - Cost of Repo field pointing to the wrong field in the database</p>

Cost of Repo field corrected to point to CostOfRepo column of Collateral_Repossession

LIQ-7892

When the only change in a Form is clearing a date, Save won't be enabled

Fixed the bug in the system where clearing a date in a form won't enable the save field to reset the date

LIQ-7813

When the business name has a Space, search by whole business name is not working

Modified the search process to match the business name irrespective of the space

LIQ-7703

DPA should not load for linked details

DPA should be not popped up for every linked account click in anchor cells

LIQ-7652

Changing outside branch access permission did not limit DPA panel from loading up once the "required data validation protection" was enabled

Disabling/ Enabling "Access Outside branch" access permission did not affect DPA panel from loading up once the "required data validation protection" was enabled. And after providing details, it checked the permission to save outside branch which should have been done before.
