# **Introduction to Invoices**

The Invoices program allows you to generate invoices for client remittance, issue statements of receivables, and create checks for your clients. Invoicing is based on account collection activity in Latitude.

Ensure that your organization set the following Accounting permissions for each user of Invoices:

- Access Invoices Program: Allows users to open Invoices.
- Enter AR Payments: Allows users to add accounts receivable payment information to apply toward invoices.
- Enter Bank Transactions: Allows users to add bank transactions for trust accounts.
- Generate Invoices: Allows users to generate invoices.
- Generate Statements: Allows users to generate statements.
- Print Checks: Allows users to print and reprint checks.

# Log On to Invoices

Use the Interaction Collector Logon dialog box to log on to Invoices.

### To log on to Invoices

1. Click **Start > All Programs > Interactive Intelligence > Interaction Collector > Invoices** or doubleclick the Invoices icon. The **Interaction Collector Logon** dialog box appears.

| 🎊 Interaction Colle | ctor Logon 🛛 🔜       |
|---------------------|----------------------|
| User Name:          |                      |
| Password:           |                      |
| Database:           | Default Instance     |
| 🔲 Log in using Wi   | ndows authentication |
| Cancel              | Qkay                 |

- 2. In the **User Name** box, type your Latitude user name.
- 3. In the **Password** box, type your Latitude password. As you type your password, periods display instead of the typed characters.
- 4. Click Okay. The Invoices window appears.

**Note**: If your agency has over 1,000 customers, a dialog box appears, prompting you to bypass loading of all customers. To prevent slow response times when opening the **Invoices** window, click **No**. A second dialog box appears, indicating the operation may take several moments to return results. Click **No** again.

- 1. Menu: Displays the commands that are available for the window.
- 2. **Navigation pane**: Displays the available customers. The icons indicate if the customer is the parent customer, child customer, or a standard customer.

| lcon | Description   |
|------|---|
| -92  | Parent customer. You can use parent customers to combine invoices for multiple customers under one invoice. For example, your agency may hold accounts for a major company (parent customer) that has several subsidiaries (child customers). |
| 2    | Child customer. You can assign child customers to a parent customer for invoicing purposes. You cannot invoice a child customer separately.   |
| 2    | Standard customer. Customers that your organization hasn't associated to other customers.   |

3. **Tabs:** When you click a customer in the **Navigation** pane, the associated information appears on the selected tab.

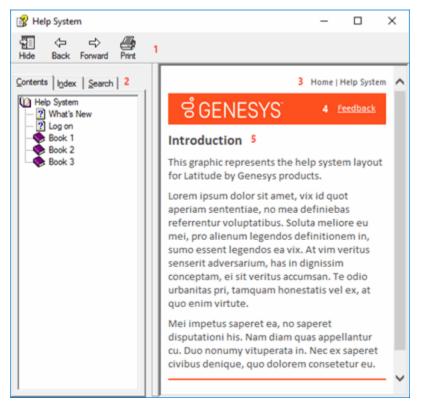

Invoices Printable Help

# **Help Overview**

Invoices help provides you with information for using Invoices. Use the table of contents, index, and search features to locate and view a topic.

### To open help

In the "\Interactive Intelligence\Interaction Collector\Documents" folder, double-click **Invoices.chm**.

**Tip**: To adjust the width and height of the window or its panes, click the edge of the window or pane and drag it up or down, left or right.

- 1. **Toolbar:** Displays options for the help window.
- 2. Tabs: Displays the following:

**Contents:** Displays the table of contents. To display a topic in the **Content** pane, expand a book and then click the link.

**Index:** Displays the index. To display a topic in the **Content** pane, type a keyword or phrase in the box (or scroll through the list) and then click the link in the list.

**Search:** Displays the <u>search feature</u>. To display a topic in the **Content** pane, type a keyword or phrase in the box and then press **Enter**. In the search results, click the link.

**Glossary:** Displays a list of terms and their definitions. To display a definition, click the term.

3. **Breadcrumbs:** Displays your current location within the help system. When you click a breadcrumb, the related topic displays.

- 4. **Content toolbar:** Displays an option to send feedback through an email message to Latitude by Genesys Documentation.
- 5. **Content pane:** Displays the contents of a topic. To view the **Content** pane menu, right-click in the **Content** pane.

# Search feature

You can use the search feature to search for topics that contain words or phrases that you specify. You formulate a search query following a specific <u>set of rules</u>. You can include <u>wildcard expressions</u>, <u>Boolean</u> <u>operators</u>, and <u>nested expressions</u> in your search query. A list of topics that match your search criteria appear in the search results. When you click a topic title in the search results, the content of that topic appears in the **Content** pane.

### Search syntax

The basic rules for formulating search queries are:

- Searches are not case-sensitive, meaning you can type uppercase or lowercase characters.
- You cannot search for a single character or the following reserved words: an, and, as, at, be, but, by, do, for, from, have, he, in, it, not, of, on, or, she, that, the, there, they, this, to, we, which, with, you.
- The search engine ignores punctuation marks and special characters such as @#\$%^&()=+[]\.
- Enclose phrases and terms that include a period (such as a file name with an extension) in double quotation marks.

### Wildcard expressions

Wildcard expressions allow you to search for one or more characters using a question mark or asterisk. A question mark represents a single character, while an asterisk represents one or more characters.

| Search for   | Example     | Result   |
|--|-------------|--|
| Topics with text that starts with one or<br>more specified characters and ends in<br>any character or number of characters                             | log or log* | Returns all topics with text that starts with the specified characters (for example, log, logon, logging.)   |
| Topics with text that starts with the<br>specified characters, has a single<br>character that can be anything, and<br>ends in the specified characters | 32?57       | Returns all topics with text that has any character<br>where you placed a question mark (for example,<br>32?57 returns 32257, 32457, and 32857.)   |
| Topics that contain all the words<br>specified, in any order or placement<br>within the topic  | account     | Returns all topics with both account and status, but<br>not necessarily as a phrase or in the order specified.<br>For example, the search returns topics with "the<br>account status" or "the status of the account" |
| Topics that contain the specified phrase   | l'account   | Returns all topics with account status as a phrase. For<br>example, the search returns topics with "the account<br>status" but not "the status of the account"   |

## **Boolean operators**

Boolean operators (AND, OR, NOT, NEAR) allow you to create a relationship between terms. If you don't specify an operator, the system uses AND by default.

| Search<br>for | Example                | Result  |
|---------------|------------------------|---|
| AND           |                        | Returns all topics with both account and status, but not necessarily as a phrase or<br>in the order specified. For example, the search returns topics with "the account<br>status" or "the status of the account" |
| OR            | account OR<br>status   | Returns all topics with either account or status, or both.  |
| NOT           | account NOT<br>status  | Returns all topics with account but not status.   |
| NEAR          | account<br>NEAR status | Returns all topics where account is within eight words of status.   |

### **Nested expressions**

Nested expressions allow you to perform complex searches. For example, queue AND ((collector OR clerical) not supervisor) finds topics containing queue and collector but not supervisor, or containing queue and clerical but not supervisor. As with mathematical expressions, the system evaluates expressions in parentheses first. If there is no parenthesis, the system evaluates the expression from left to right. For example, queue NOT (clerical OR supervisor) finds topics containing queue but not clerical or supervisor. Queue NOT clerical OR supervisor finds topics containing queue but not clerical, or topics containing supervisor.

# Customers

## Customers

Use the **Invoices** window to select groups of customers to view, search for customers, and modify customer information. You can also set up customer groups and associate customers to the groups.

# Select Customers to Display in the Navigation Pane

Use the Invoices window to select the customers to display in the Navigation pane.

### To select customers to display in the Navigation pane

- In the Invoices window, from the View menu, do one of the following:
  - To display a list of all customers, click **All Customers**. The **Navigation** pane displays a list of all customers.
  - To display a list of customers that your organization invoices monthly, click **Monthly Customers**. The **Navigation** pane displays a list of customers that you invoice monthly.
  - To display a list of customers that your organization invoices weekly, click Weekly
     Customers. The Navigation pane displays a list of customers that you invoice weekly.
  - To display a list of customers that your organization invoices on demand, click On Demand Customers. The Navigation pane displays a list of customers that you invoice on demand.
  - To display a list of customers in the default customer group, click **Default Group**. The **Navigation** pane displays a list of customers in the default customer group.
  - To display a list of customers in a specific customer group, click the group name. The **Navigation** pane displays a list of customers in the specified customer group.

### **Search for a Customer**

Use the Simple Search tab in the Search - Search for Customer window to search for a customer.

### To search for a customer

1. From the **Tools** menu, click **Find Customer**. The **Search - Search for Customer** window appears.

| Search for Customer               |  |
|-----------------------------------|--|
| Simple Search Results             | For help with wild card searching, <u>click here</u> . |
| Customer Code: 0000001            |  |
| Customer Name:                    |  |
| Customer Group No items selected. | <u> </u>   |
| Alpha Code:                       |  |
| Contact Name:                     |  |
| Maximum results: 250 📩            | Search complete, 1 results returned. Clear Search      |

### 2. On the **Simple Search** tab, type search criteria into one or more boxes.

Tip: For fewer results, provide more information. For more results, provide less information.

### 3. Click Search. The results display on the Search Results tab.

|   | 🍏 Search for C | ustomer        |            |              |                 |                 |              | x     |

4. Click Select. The customer's information displays in the Invoices window.

### **Modify Customer Information**

Use the **Customer Properties** window to modify customer information. For more information about this window and its tabs, see the "Maintain a Customer" topic in the *Latitude* documentation.

### To modify customer information

 In the Invoices window, in the Navigation pane, right-click a customer and then click Properties. The Customer Properties window appears.

| Customer Properties | 0000001 CUSTOMER ONE          |                                  | x     |

2. Modify the information as necessary and then click OK.

# **Customer Groups**

### **Customer Groups**

Use the **Customer Groups** window to add and modify customer groups. Customer Groups represent general types of collection business given to your agency. You can use Customer Groups to categorize customers for invoicing and statistics. You can place individual customers into one or more groups (or none).

### Add a Customer Group

Use the New Custom Group dialog box to add a customer group.

### To add a customer group

1. In the **Invoices** window, from the **Tools** menu, click **Custom Group Editor**. The **Customer Groups** window appears.

| New Group       Refresh         Image: Second Stream St | Class<br>00001 - RETAIL<br>00003 - TEST CLASS OF BUSINESS<br>00001 - RETAIL<br>00003 - STUDENT LDANS<br>00003 - STUDENT LDANS<br>00000 - GENERAL CLASS OF BUSINES<br>00000 - GENERAL CLASS OF BUSINES  |

2. In the **Navigation** pane, right-click the customer and then click **Remove Customer**. The Invoices program deletes the customer from the customer group. The customer remains in the system.

# Invoices

### Invoices

Use the Invoices window to specify settings and generate invoices for a customer or group of customers.

# **Generate an Invoice for a Specific Customer**

Use the **Invoice Options** dialog box to specify what information to include on the invoice and then generate the invoice for a specific customer. Before generating invoices, confirm that you processed all payment batches.

**Note**: For customers associated to a parent customer (subsidiaries), The Invoices program only generates invoices for the parent customer.

### To generate an invoice for a specific customer

 In the Invoices window, in the Navigation pane, right-click a customer and then click Invoice Customer. The Invoice Options dialog box appears, with the customer name and number at the top.

| Invoice Options   |
|---|
| 0000004 - ABC CUSTOMER  |
| Invoice Date  |
| Invoice will be dated: (Select date) 4 / 1 /2019 💌                                    |
| Payment Date Range  |
| Include all uninvoiced payments.  |
| C Include payments with entered date range of:  |
| 3/2/2019 - 4/1/2019 -   |
| Direct Payments   |
| <ul> <li>Bypass Direct Payments and do not include them on<br/>the Invoice</li> </ul> |
| Include Direct Payments   |
| Match PURs (Exclude from Invoice)   |
| ✓ Match the Reversal with the Payment that was reversed.                              |
| Match the Reversal with any matching payment for the same account.                    |

|   |

**Invoice will be dated:** Date to appear on the invoice. The date defaults to the current date. To change the date, click the arrow and then click a date in the calendar.

**Include all uninvoiced payments:** If selected, the invoice includes all payments that your organization hasn't invoiced.

**Include payments with entered date range of:** If selected, the invoice only includes payments and adjustments within the specified date range that your organization hasn't invoiced. Specify the date range or accept the default, which includes all payments and adjustments since your organization last created an invoice for this customer. The first box is the beginning date and the second box is the ending date.

**Bypass Direct Payments and do not include them on the invoice:** If selected, the invoice doesn't include payments made directly to the customer.

**Include Direct Payments:** If selected, the invoice includes payments made directly to the customer.

Match the Reversal with the Payment that was reversed: If selected, the invoice doesn't include reversals that the Invoices program matches to a reversed payment.

Match the Reversal with any matching payment for the same account: If selected, the invoice doesn't include reversals that the Invoices program matched to any matching payment for the same account.

**Note**: If you select both check boxes, the Invoices program matches the reversal to the reversed payment as long as your organization hasn't invoiced the reversed payment. If your organization invoiced the reversed payment but hasn't invoiced the make-up payment, the Invoices program matches the reversal to the make-up payment. If you clear both check boxes, the invoice includes all payments and reversals.

**Print Statement with Invoice:** If selected, the Invoices program prints a customer statement along with the invoice.

**Print Statement even if Invoice has no items:** If selected and the invoice doesn't have any line items, the Invoices program prints a customer statement. If cleared and the invoice doesn't have any line items, the Invoice program doesn't print a statement.

- 2. Complete the information.
- 3. To preview the invoice, do the following:
  - a. Click **Preview**. The invoice displays in the **Invoice [Customer Code][Invoice Number] -**Latitude Report Viewer window.

**Note:** This window provides several options, such as exporting and printing. For more information, see <u>Report Viewer</u>.

- b. Close the window.
- 4. To export the invoice, do the following:
  - a. In the **Invoice Options** dialog box, click **Export**. The **Browse For Folder** dialog box appears.
  - b. Select the folder to save the file to and then click OK. The file naming convention is, "Invoice [Customer] [Invoice Number]". If you selected the Print Statement with Invoice check box, the Invoices program generates a statement also. The file naming convention is, "Statement [Customer] [datetime stamp]".
- 5. To print the invoice, do the following:
  - a. In the Invoice Options dialog box, click Printer. The Print dialog box appears.
  - b. Select a printer and then click **Print**.

When you are finished previewing, printing, or exporting the invoice, the **Status of Invoices** window appears.

7. To view summary information for an individual customer, in the **Navigation** pane, click the customer.

# **Generate Invoices for a Group of Customers**

Use the **Invoice Options** dialog box to specify what information to include on the invoices and then generate invoices for the specified group of customers.

**Note**: The Invoices program only invoices customers associated to a parent customer (subsidiaries) under the parent customer.

### To generate invoices for a group of customers

- 1. In the **Invoices** window, do one of the following:
  - To generate invoices for all customers, from the View menu, click All Customers. In the Navigation pane, click All Customers.
  - To generate invoices for customers that your organization invoices monthly, from the View menu, click Monthly Customers. In the Navigation pane, click All Monthly Customers.
  - To generate invoices for customers that your organization invoices weekly, from the View menu, click Weekly Customers. In the Navigation pane, click All Weekly Customers.

- To generate invoices for customers that your organization invoices on demand, from the View menu, click On Demand Customers. In the Navigation pane, click All On Demand Customers.
- To generate invoices for customers in the default customer group, from the **View** menu, click **Default Group**. In the **Navigation** pane, click **Default Group**.
- To generate invoices for customers in a specific customer group, from the **View** menu, click the group name. In the **Navigation** pane, click the group name.
- 2. From the **Action** menu, click **Invoice All**. The **Invoice Options** dialog box appears, with the name and number of the first customer in the group at the top.

**Invoice will be dated:** Date to appear on the invoice. The date defaults to the current date. To change the date, click the arrow and then click a date in the calendar.

**Include all uninvoiced payments:** If selected, the invoice includes all payments that your organization hasn't invoiced.

**Include payments with entered date range of:** If selected, the invoice only includes payments and adjustments within the specified date range that your organization hasn't invoiced. Specify the date range or accept the default, which includes all payments and adjustments since your organization last created an invoice for this customer. The first box is the beginning date and the second box is the ending date.

**Bypass Direct Payments and do not include them on the invoice:** If selected, the invoice doesn't include payments made directly to the customer.

**Include Direct Payments:** If selected, the invoice doesn't include payments made directly to the customer.

Match the Reversal with the Payment that was reversed: If selected, the invoice doesn't include reversals that the Invoices program matches to a reversed payment.

Match the Reversal with any matching payment for the same account: If selected, the invoice doesn't include reversals that the Invoices program matched to any matching payment for the same account.

**Note**: If you select both check boxes, the Invoices program matches the reversal to the reversed payment as long as your organization hasn't invoiced the reversed payment. If your organization invoiced the reversed payment but hasn't invoiced the make-up payment, the Invoices program matches the reversal to the make-up payment. If you clear both check boxes, the invoice includes all payments and reversals.

**Print Statement with Invoice:** If selected, the Invoices program prints a customer statement along with the invoice.

**Print Statement even if Invoice has no items:** If selected and the invoice doesn't have any line items, the Invoices program prints a customer statement. If cleared and the invoice doesn't have any line items, the Invoice program doesn't print a statement.

**Use these settings for all Invoices in this run:** If selected, the Invoices program applies these settings to all the customers. If cleared, the Invoices program displays the **Invoices Options** dialog box for each invoice to allow you to specify settings for each customer.

- 3. Complete the information.
- 4. To preview the first invoice in the group, do the following:
  - a. Click **Preview**. The invoice displays in the **Invoice [Customer Code][Invoice Number] Latitude Report Viewer** window.

| 2  | Invoice [0000002][1 | 1000                    | 3] - Latitude Re   | eport Viewer |                            |                           | _            | • X |

**Note:** This window provides several options, such as exporting and printing. For more information, see **Report Viewer**.

- b. Close the window.
- c. To view the next invoice, close the window and, in the **Invoice Options** dialog box, click **Preview**.
- 5. To export the first invoice in the group, do the following:
  - a. In the **Invoice Options** dialog box, click **Export**. The **Browse For Folder** dialog box appears.
  - Select the folder to save the file to and then click OK. The file naming convention is, "Invoice [Customer] [Invoice Number]". If you selected the Print Statement with Invoice check box, the Invoices program generates a statement also. The file naming convention is, "Statement [Customer] [datetime stamp]".
  - c. To export the next invoice, in the **Invoice Options** dialog box, click **Export**.
- 6. To print the first invoice in the group, do the following:
  - a. In the **Invoice Options** dialog box, click **Printer**. The **Print** dialog box appears.
  - b. Select a printer and then click **Print**.
  - c. To print the next invoice, in the **Invoice Options** dialog box, click **Printer**.

When you are finished previewing, printing, or exporting the invoices, the **Status of Invoices** window appears.

| Customer Group     | Sele | cted: "All Cu | Aomers"      |         |                  |                   |                             |                | 2:59 PM        | 4/1/2019     |

8. To view summary information for an individual customer, in the **Navigation** pane, click the customer.

### **Undo the Last Invoice Generated**

Use the **Invoices** window to undo the last invoice generated. This option allows you to correct items on an invoice and then regenerate the invoice. If you generated invoices for a group of customers, the Invoices program reverts the last invoice in the group. You can repeat these steps to undo as many invoices as necessary. To undo a specific invoice, see <u>Undo a Specific Invoice</u>.

### To undo the last invoice generated

1. In the **Invoices** window, from the **Actions** menu, click **Undo Last Invoice**. A confirmation dialog box appears.

| Undo Invoice   |  |
|--|--|
| Undo Invoice 10003<br>Dated 4/11/2013<br>Customer 0000006? |  |
| Yes No   |  |

- 2. Click Yes. A notification dialog box appears.
- 3. Click **OK**.

### **Undo a Specific Invoice**

Use the **Summary of Invoices** tab in the **Invoices** window to undo a specific invoice. This option allows you to correct items on an invoice and then regenerate the invoice. Undoing an invoice doesn't undo checks that you printed. If you printed checks, delete them from the check register. For more information, see <u>Delete a Transaction From the Check Register</u>.

**Note**: The data grid includes invoices for parent customers only. If you select a child customer, the Invoices program displays the parent customer number to reference.

### To undo a specific invoice

- 1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.
- 2. Click the **Summary of Invoices** tab.

|   |       |                      |             | Latitude   | Invoices (Ve     | ersion 10.10.     | 76)                         |                | Ŀ              | - 0 X  |

- 3. To change the date range for which to display invoices, click the arrow next to the date range boxes and click a beginning and ending date.
- 4. In the data grid, right-click the invoice and then click **Undo Selected Invoice**. The **Undo Invoice(s)** dialog box appears.

**Tip:** To select multiple sequential invoices, press and hold the **Shift** key and click the first and last sequential invoice. To select multiple non-sequential invoices, press and hold the **Ctrl** key and click each individual invoice. Click **Undo All Selected**.

| Undo Invoice(s)                                | ×         |
|--|-----------|
| Are you sure you want to undo:<br>1 Invoice(s) |           |

- 5. Click Yes. A notification dialog box appears.
- 6. Click **OK**.

### **Reprint an Invoice**

Use the **Summary of Invoices** tab in the **Invoices** window to reprint an invoice.

**Note**: The data grid includes invoices for parent customers only. If you select a child customer, the Invoices program displays the parent customer number to reference.

### To reprint an invoice

- 1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.
- 2. Click the Summary of Invoices tab.

| Actions Tools View   | Rep<br>Su | orts<br>mmary of Irw |          |        |                   | ersion 10.10.    | 76)                         |            | Ŀ          | _   <b>D</b>   X |

3. To change the date range for which to display invoices, click the arrow next to the date range boxes and click a beginning and ending date.

4. In the data grid, right-click the invoice and then click **Reprint Selected Invoice**.

**Tip:** To select multiple sequential invoices, press and hold the **Shift** key and click the first and last sequential invoice. To select multiple non-sequential invoices, press and hold the **Ctrl** key and click each individual invoice. Click **Reprint All Selected**.

- 5. Do one of the following:
- 6. To preview the invoice before reprinting, click **Preview**. The invoice appears in the **Report Viewer** window. For more information, see <u>Report Viewer</u>.
- 7. To print the invoice without previewing it first, click **Printer**.

### **Specify Default Invoicing Options**

Use the **Options** dialog box to specify default invoicing options for your agency. These settings apply globally.

### To specify default invoicing options

1. From the View menu, click Options. The Options dialog box appears.

| ₽      | Options  | x |
|--------|--|---|
| Cust   | omers with balances due  | _ |
| 7      | Adjust Remittance Checks.  Apply To Oldest First<br>When an Invoice is created, if the Customer has outstanding Open Items due, offset<br>any check to be created by the amount due from the Customer.   |   |
| - Payr | nent Date Selection  | _ |
| 0      | Select by the Payment Entered date.  |   |
| 0      | Select by the Payment Date-Paid date. (Not recommended)  |   |
| Rev    | ersal Matching   | _ |
| R      | Match Reversals with the original payment and do not invoice either payment.   |   |
| R      | Match Reversals with the payment that covers it.   |   |
| ori    | ooth boxes are checked the reversal will be matched with the original payment as long as th<br>ginal payment has not been invoiced. If the original payment has been invoiced the progra<br>I match the reversal with the make-up payment if that has not yet been invoiced. |   |
| Logg   | ing<br>Enable Logging  |   |
|        | Save Options Exit  |   |

**Adjust Remittance Checks:** If selected, the Invoices program deducts from the checks created in the Invoices program the outstanding open items due from customers. The Invoices program reduces the invoice totals by the amount applied to outstanding accounts receivable items and prints another summary line on invoices to show the amount applied.

**Apply to Oldest First:** If selected, the system applies payments to the oldest accounts receivable balance first. This option is available when you select the **Adjust Remittance Checks** check box.

**Select by the Payment Entered Date:** If selected, the invoice includes payments based on the date a user added the payment to Latitude.

**Select by the Payment Date - Paid date:** If selected, the invoice includes payments based on the date paid.

Match Reversals with the original payment and do not invoice either payment: If selected, the Invoices program matches reversals to the reversed payment and doesn't invoice either transaction.

**Match Reversals with the payment that covers it:** If selected, the Invoices program matches reversals to any matching payment for the same account and doesn't include them on invoices.

**Note**: If you selected both check boxes, the Invoices program matches reversals to the original payment as long as your organization hasn't invoiced the original payment. If your organization invoiced the original payment and hasn't invoiced the make-up payment, the Invoices program matches the reversals to the make-up payment. If you cleared both check boxes, the invoice includes all payments and reversals.

**Enable Logging:** If selected, the Invoices program creates the "Invoices.log" file in the C:\Program Files (x86)\Interaction Collector\AuditLogs directory. It contains any error messages generated in the Invoices program. You can send this file to Latitude by Genesys Support for assistance in troubleshooting invoicing issues.

2. Complete the information and then click **Save Options**.

# **Modify Invoicing Options**

Use the **Customer Properties** window to modify a customer's invoicing options.

### To modify invoicing options

1. In the **Invoices** window, in the **Navigation** pane, right-click a customer and then click **Properties**. The **Customer Properties** window appears.

| Customer Properties: | 0000001 CUSTOMER ONE           |                                 | x     |

**Parent Customer:** If your organization bills the customer as part of a parent company, click the folder to select a customer group.

Invoice Type: Determines the invoicing method for payment types.

- Separate: Creates separate invoices for each payment type.
- Combined: Includes all payment types together (combined) in one invoice.

**Note**: If you set the **Invoice Type** to **Combined**, **PC** (direct), the Invoices program includes payments in the fees withheld. If you set the **Invoice Type** to **Separate**, **PC** (direct), the Invoices program creates payments as open items for the invoice.

Invoice Frequency: Determines how often to send invoices to the customer.

Invoice Method: Method for invoicing the customer.

- **Net:** Subtracts your organization's fee from the customer invoice.
- **Gross:** Sends customer invoices with all monies included. The customer pays your fee based on the invoice information.

Invoice Sort: Order to sort the invoices.

**Remit Method:** Determines the method for remitting invoices. Invoice transactions appear in the check register automatically for customers with a remittance method of "check" or "ACH transfer." If the remittance method is "manual," add the invoice transactions to the check register manually.

- Manual: Your agency manually generates checks for the customer.
- Check: Your agency uses the Invoices program to print checks for the customer.

• **ACH Transfer:** Your agency uses the **Invoices** program to create ACH wire transfers for the customer.

Show [check boxes]: If selected, the corresponding information prints on the customer's invoices.

Number of days to allow payments to clear before including on invoice: Number of days to wait before including debtor payments on a customer invoice. If the debtor's check does not clear, use this option to avoid sending payment information to a customer.

**Invoice Report:** Crystal Reports file to use when creating invoices for the customer. This option allows you to use custom invoices for each customer. The default file is **BasicInvoice.rpt**.

3. Modify the settings as necessary and then click **OK**.

### **Report Viewer**

Use the **Report Viewer** window to view and print a report, invoice, or customer statement. The **Report Viewer** window appears when you:

- Generate a report.
- Generate or reprint an invoice.
- Preview a statement.

The following example is for a report.

| Invoice Su   | mmary -: Report Viewer |            |                         |                             |             |          |                |            | 0        | ×  |

## **Statements**

## **Statements**

Use the **Invoices** window to preview and print account statements for a customer or group of customers. Account statements show a customer's receivables by invoice.

## **Generate a Statement for a Specific Customer**

Use the **Report Viewer** window to generate a statement of account for a specific customer.

### To generate a statement for a specific customer

- 1. In the **Invoices** window, in the **Navigation** pane, right-click the customer and then click **Generate Statements**.
- 2. Do one of the following:
  - To preview the statement before printing it, click **Preview**. The statement of account appears in the **Report Viewer** window.

| Statement for 0000001 - Report Viewer   |  |   |
|---|--|---|
| 🗿 🍊 К 🗸 Э Н 🛛   | /1 ∰ ∰ •   |   |

For more information about using the **Report Viewer** window, see <u>Report Viewer</u>.

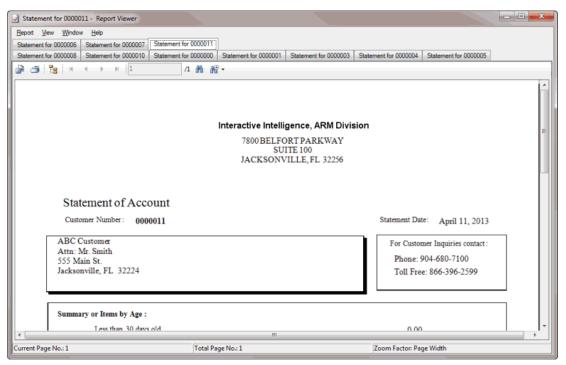

• To print the statement without previewing it first, click **Print**. The statement of account is output to your default printer.

### **Generate Statements for a Group of Customers**

Use the **Report Viewer** window to generate account statements for a group of customers.

### To generate statements for a group of customers

- 1. In the **Invoices** window, do one of the following:
  - To generate statements for all customers, from the **View** menu, click **All Customers**. In the **Navigation** pane, click **All Customers**.
  - To generate statements for customers that your organization invoices monthly, from the View menu, click Monthly Customers. In the Navigation pane, click All Monthly Customers.
  - To generate statements for customers that your organization invoices weekly, from the View menu, click Weekly Customers. In the Navigation pane, click All Weekly Customers.
  - To generate statements for customers that your organization invoices on demand, from the View menu, click On Demand Customers. In the Navigation pane, click All On Demand Customers.
  - To generate statements for customers in the default customer group, from the **View** menu, click **Default Group**. In the **Navigation** pane, click **Default Group**.
  - To generate statements for customers in a specific customer group, from the **View** menu, click the group name. In the **Navigation** pane, click the group name.
- 2. From the Action menu, click Generate Statements.
- 3. Do one of the following:
  - To preview the statement before printing it, click **Preview**. The account statements appear in the **Report Viewer** window. A tab appears in the window for each customer statement.

For more information about using the **Report Viewer** window, see <u>Report Viewer</u>.

• To print the statements without previewing them first, click **Print**. The account statements are output to your default printer.

## **Report Viewer**

Use the **Report Viewer** window to view and print a report, invoice, or customer statement. The **Report Viewer** window appears when you:

- Generate a report.
- Generate or reprint an invoice.
- Preview a statement.

The following example is for a report.

# **Transactions**

## **Transactions**

Use the **Summary of Open Items** tab in the **Invoices** window to view outstanding invoices (receivables) for the specified customer or group of customers. You can view payment and adjustment transactions and post them to the invoices.

## **View Payment and Adjustment Transactions**

Use the **Summary of Open Items** tab in the **Invoices** window to view payment and adjustment transactions by invoice for a customer.

**Note**: The data grid includes invoices for parent customers only. If you select a child customer, the Invoices program displays the parent customer number to reference.

### To view payment and adjustment transactions

- 1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.
- 2. Click the Summary of Open Items tab.

Summary of Invoices Summary of Open Items 0000001 - JACKSONVILLE BANK (US Dollar) Monthly Invoice Frequency: GROSS Invoice Method: View Date Range SEPARATE Invoice Type: to 12/19/2011 ACCOUNT NUMBER 12/1/2010 -. - 5. To print the information, click **Print**. In the **Print** dialog box, modify the settings as necessary and then click **Print**. The information is output to the specified printer.
- 6. To post another transaction to the invoice, click **New Transaction**.
- 7. To close the dialog box, click **Exit**.

## Post a Transaction to an Invoice

Use the **New Open Item Transaction dialog box** to post payment and adjustment transactions to an invoice.

**Note**: The data grid displays invoices for parent customers only. If you select a child customer, the Invoices program includes the parent customer number to reference.

### To post a transaction to an invoice

- 1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.
- 2. Click the **Summary of Open Items** tab.

### Transactions

- 7. In the **Comment** box, type a comment to include on the statement (optional) and then click **Accept**.

# **Check Register**

## **Check Register**

Use the **Check Register** window to generate checks or Automated Clearing House (ACH) transactions for your customers and keep a record of all bank transactions for your agency's trust accounts. Invoice amounts show in the check register for those customers configured to allow checks or ACH transactions for remittance.

## Add a Transaction to the Check Register

Use the **New Bank Entry** dialog box to add a transaction to the check register.

### To add a transaction to the check register

1. In the **Invoices** window, from the **View** menu, click **Check Register**. The **Check Register** window appears.

|      | Check Registe        | 0 //-           |               |              |                     |         |                   |                | ×              |

|     | _              |                  |                       |                |           |                     |                |

2. In the **Select Bank Account** list box, click the bank account for which to view transactions. If you don't have a check template associated to the bank account, the **Invoices** dialog box appears.

- 3. Do the following:
  - 1. Click OK. The Check Stock Editor window appears.
  - 2. In the list box under the check sample, click the template name.
  - 3. Click Accept Settings and then click Exit.
- 4. In the **Show Transaction Type** section, click the type of transactions to view.

5. In the **Transaction Date Range** section, type the beginning and ending transaction date to view. Transactions that meet the specified criteria appear in the **Selected Entries** data grid.

## **Delete a Transaction From the Check Register**

Use the **Check Register** window to delete a transaction from the check register.

### To delete a transaction from the check register

- 2. In the **Select Bank Account** list box, click the bank account for which to view transactions.
- 3. In the **Show Transaction Type** section, click the type of transactions to view.
- 4. In the **Transaction Date Range** section, type the beginning and ending transaction date to view. Transactions that meet the specified criteria appear in the **Selected Entries** data grid.
- 5. In the data grid, click the transaction to delete.
- 6. Right-click the transaction and then click **Delete**. A confirmation dialog box appears.

- 7. Click **Yes**. A notification dialog box appears.
- 8. Click **OK**.

### **Create or Modify a Check Template**

Use the **Check Stock Editor** window to create or modify a check template to use when you print checks. The Invoices program includes a standard check template. You can modify this template or create your own. You can use any standard 8 ½ x 11 paper stock that prints 3 checks per page.

#### To create or modify a check template

1. In the **Invoices** window, from the **View** menu, click **Check Register**. The **Check Register** window appears.

| Font Size<br>8.25 💌 | Font<br>MS Sans Serif        | •                   | B <u>U</u> /   |
| Text                |                              |                     |                |
| Number              |                              |                     |                |
| This text wil       | be printed in the font style | selected if the ite | em is enabled. |
|                     | Cancel                       | OK                  |                |

Font Size: Label font size.

Font: Label font style.

- **B:** Click to bold the label.
- **U:** Click to underline the label.
- I: Click to italicize the label.

Text: Label text.

- b. Modify the information as necessary and then click **OK**.
- 5. To exclude a label from printing on checks, right-click the label and then click **Disable this field**. The label is gray.
- 6. To include a label so that it prints on checks, right-click the label and then click **Enable this field**. The label is no longer gray.
- 7. To change the location of a label, click the label and drag it to the location you want and then release your mouse button.
- 8. To change the check size, click the square in the lower right-side corner of the check and drag it to the width and height you want. Use the rulers as a guide. The Invoices program moves the magnetic code strip so that it appears in the lower section of the check.
- 9. To change the number of checks to print per page, click in the Layout box.
- 10. If you're creating a template, in the template name list box, type a name for the template.
- 11. To print a grid on the background of the check, in the **Grid** section, do the following:
  - 1. In the **Size** list box, click the size of the grid.
  - 2. To set the grid color, in the **Red**, **Green**, and **Blue** boxes, type or click the color mix.
- 12. To print a check sample so that you can verify the layout settings, click **Test Print**.
- 13. When the layout settings are correct, click Accept Settings and then click Exit.

## **Specify a Check Template**

Use the **Check Stock Editor** window to specify the check template to use when printing checks.

### To specify a check template

| Check Registe       | er //            |  |                |                       | - • ×          |  |  |  |  |

- 2. In the Select Bank Account list box, click the bank account for which to view transactions.
- 3. In the **Show Transaction Type** section, click the type of transactions to view.
- 4. In the **Transaction Date Range** section, type the beginning and ending transaction date to view. Transactions that meet the specified criteria appear in the **Selected Entries** data grid.
- 5. Click **Print All**. The **Print** dialog box appears.
- 6. Modify the settings as necessary and then click **Print**. The **Check Print Options** dialog box appears.

| Check Print Options   |  |  |  |  |  |  |  |  |  |
|---|--|--|--|--|--|--|--|--|--|
| 00000 - General Trust   |  |  |  |  |  |  |  |  |  |
| 1 checks to print   |  |  |  |  |  |  |  |  |  |
| <ul> <li>The Check Stock does not have pre-printed numbers. Auto-generate Check<br/>Numbers starting with the last number printed.</li> </ul> |  |  |  |  |  |  |  |  |  |
| C Check stock is pre-numbered and the next number is:   |  |  |  |  |  |  |  |  |  |
| Cancel Print OK   |  |  |  |  |  |  |  |  |  |

- 7. Do one of the following:
  - If the check paper doesn't have pre-printed numbers, click The Check Stock does not have pre-printed numbers. The system prints the check numbers on the checks, starting with the next sequential number after the last check number used. The system also records the check numbers in the check register.
  - For pre-numbered check paper, click **Check stock is pre-numbered and the next number is:** and then, in the box, type the starting check number. The Invoices program doesn't print the check numbers on the pre-numbered check paper. The Invoices program does use the check number you type in the box to record the check numbers in the check register.
- 8. Click **OK**. The Invoices program prints the checks. The Invoices program records the date printed and the check numbers in the **Selected Entries** data grid. The Invoices program assigns check number "1000" to checks without a check number.

## **Reprint a Check**

Use the **Check Register** window to reprint one or more checks. Ensure that you have the magnetic cartridge used for checks installed in your printer and the correct paper stock in the paper tray.

### To reprint a check

| Check Registe                  | er //            |  |         |                     | - • ×          |

|   | 1 checks to reprint                                 |  |  |  |  |  |  |  |
| ( Print the same Check Numbers originally used. |   |  |  |  |  |  |  |  |
| c   | Check stock is pre-numbered and the next number is: |  |  |  |  |  |  |  |
|   | Cancel Print OK                                     |  |  |  |  |  |  |  |

- 7. Do one of the following:
  - To use the same check numbers that you used originally, click **Print the same Check Numbers originally used**.
  - For pre-numbered check paper, click **Check stock is pre-numbered and the next number is:** and then, in the box, type the starting check number. The Invoices program doesn't print the check numbers on the pre-numbered check paper. The Invoices program does use the check number you type in the box to record the check numbers in the check register.
- 8. Click **OK**. The **Print** dialog box appears.
- Modify the settings as necessary and then click **Print**. The Invoices program prints the checks. The Invoices program records date printed and the check numbers in the **Selected Entries** data grid.

## **Print the ACH Transfer List**

Use the **ACH Transfers** window to print the Automated Clearing House (ACH) transfer list for customers that your organization configured for ACH transfers. The list includes the dollar amounts to pay based on the invoices generated in Invoices. Use the list as a reference when transferring payments.

### To print the ACH transfer list

| 🗐 Check Registe     | er //                                   |                                |         |                     | x              |  |  |  |  |

- 3. Click Print. The Print dialog box appears.
- 4. Modify the settings as necessary and then click **Print**. The list is output to the specified printer.

## **Reports**

## **Reports**

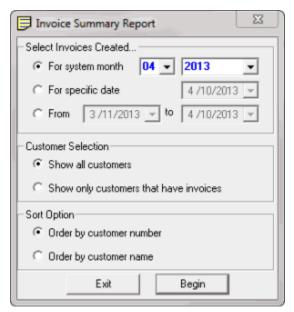

Use the **Reports** menu in the **Invoices** window to preview and print invoice-related reports.

## Generate a Summary of Invoices Report for a Specific Time Period

Use the **Invoice Summary Report** to view invoices by customer for a specified time period.

### To generate a Summary of Invoices report for a specific time period

1. In the **Invoices** window, from the **Reports** menu, click **Invoice Summary Report** and then click **Preview**. The **Invoice Summary Report** dialog box appears.

- 2. In the Select Invoices Created section, do one of the following:
  - To generate the report for a specific month, click **For system month** and then, in the list boxes, click the month and year.
  - To generate the report for a specific date, click **For specific date** and then, in the list box, click the date.
  - To generate the report for a specific time period, click **From** and then, in the list boxes, click the beginning and ending dates.
- 3. In the **Customer Selection** section, do one of the following:
  - To include all customers in the report, click **Show all customers**.
  - To include in the report only those customers with invoices, click **Show only customers** that have invoices.
- 4. In the **Sort Option** section, do one of the following:
  - To sort the report by customer number, click **Order by customer number**.

- To sort the report by customer name, click **Order by customer name**.
- 5. Click **Begin**. The **Report Viewer** window appears.

- 6. To export the report to a file, do the following:
  - 1. In the menu bar, click the Export icon. The **Export Report** dialog box appears.
  - 2. In the **File name** box, type a name for the report.
  - 3. In the **Save as type**, click the type of file to export the report to and then click **Save**. When the export completes, a notification dialog box appears.
  - 4. Click **OK**.
- 7. To print the report, do the following:
  - 1. In the menu bar, click the Print icon. The **Print** dialog box appears.
  - 2. Modify the settings as necessary and then click **Print**.

**Note**: You can also print the report from the **Reports** menu by clicking **Invoice Summary Report**, specifying the report parameters, and then clicking **Printer**.

### Generate a Summary of Invoices Report for a Customer or Group of Customers

Use **Summary of Invoices** tab in the **Invoices** window to generate a **Summary of Invoices** report for a customer or group of customers.

**Note**: The data grid includes invoices for parent customers only. If you select a child customer, the Invoices program displays the parent customer number to reference.

### To generate a Summary of Invoices report for a customer or group of customers

1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.

2. Click the Summary of Invoices tab.

- 2. To export the report to a file, do the following:
  - 1. In the menu bar, click the Export icon. The **Export Report** dialog box appears.
  - 2. In the File name box, type a name for the report.
  - 3. In the **Save as type**, click the type of file to export the report to and then click **Save**. When the export completes, a notification dialog box appears.
  - 4. Click OK.
- 3. To print the report, do the following:
  - 1. In the menu bar, click the Print icon. The **Print** dialog box appears.
  - 2. Modify the settings as necessary and then click **Print**.

Note: You can also print the report from the **Reports** menu by clicking **Uncleared Checks Report** and then clicking **Printer**.

### **Generate a Customer Open Item Summary Report**

Use **Summary of Open Items** tab in the **Invoices** window to generate a **Customer Open Item Summary** report for a customer or group of customers.

**Note**: The data grid includes invoices for parent customers only. If you select a child customer, the Invoices program displays the parent customer number to reference.

### To generate a Customer Open Item Summary report

1. In the **Invoices** window, in the **Navigation** pane, click the customer or invoicing group for which to display invoices.

- 2. Click the Summary of Open Items tab.
- 3. To change the date range for which to display invoices, click the arrow next to the date range boxes and click a beginning and ending date.
- 4. In the data grid, click one or more invoices.

**Tip:** To select multiple sequential invoices, press and hold the **Shift** key and click the first and last sequential invoice. To select multiple non-sequential invoices, press and hold the **Ctrl** key and click each individual invoice.

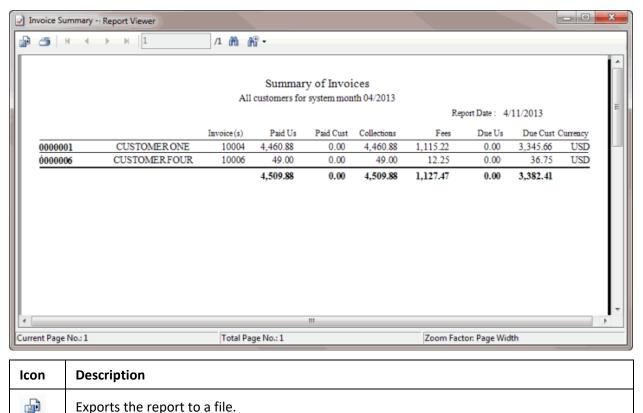

- 5. From the Actions menu, click Print. The Print dialog box appears.
- 6. Modify the settings as necessary and then click **Print**. The report is output to the specified printer.

### **Report Viewer**

Use the **Report Viewer** window to view and print a report, invoice, or customer statement. The **Report Viewer** window appears when you:

- Generate a report.
- Generate or reprint an invoice.
- Preview a statement.

The following example is for a report.

| <b>5</b>    | Prints the report.  |
|-------------|---|
| K           | Displays the first page of the report.  |
| 4           | Displays the previous page of the report.   |
| •           | Displays the next page of the report.   |
|             | Displays the last page of the report.   |
| 1/1         | Indicates the report page currently displayed and the total number of pages in the report.  |
| <i>i</i> hi | Opens the <b>Find Text</b> dialog box to allow you to search for text within the report.  |
| <b>#</b>    | Increases or decreases the text size when viewing the report on your monitor. Changing the text size here does not affect the size of the text on the printed report. |
