Export Call List to Genesys Cloud Campaign ..... 1

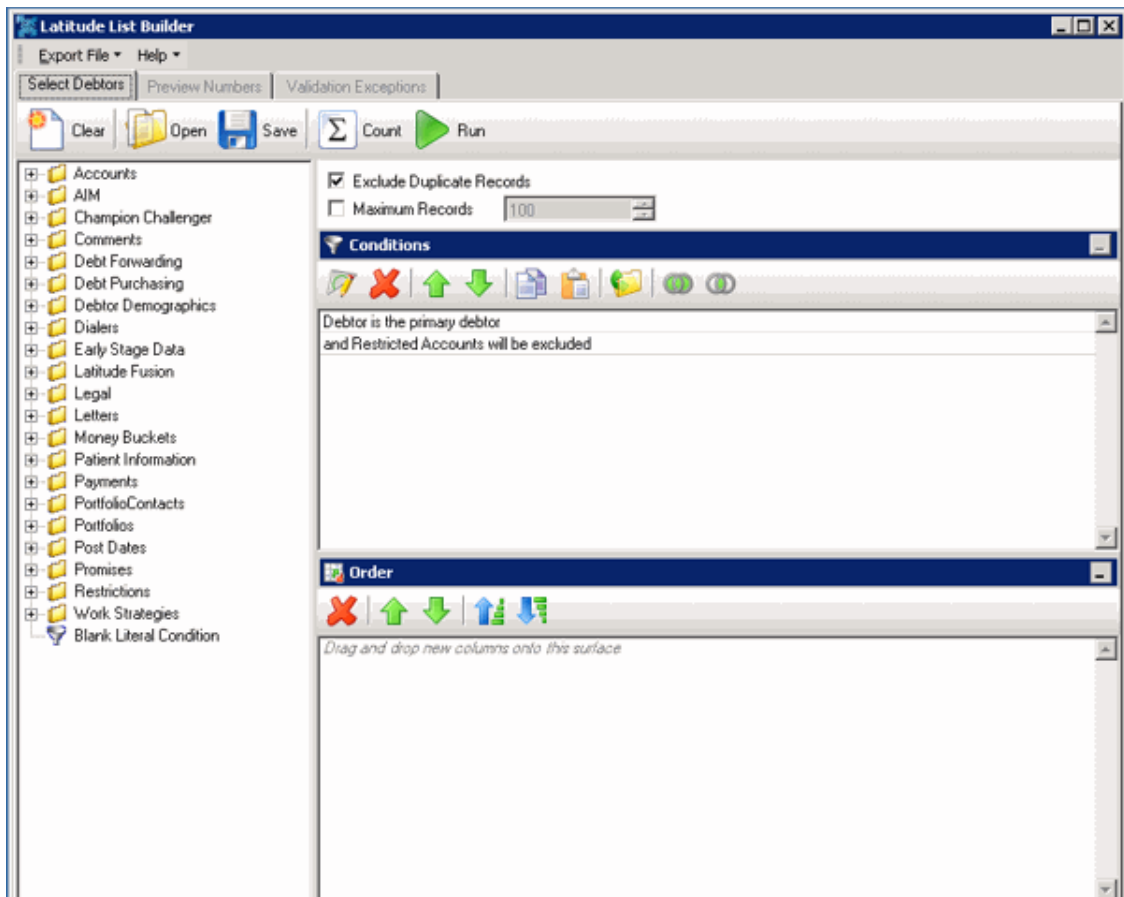

## Export Call List to Genesys Cloud Campaign

Create and export a call list to Genesys Cloud campaign. This feature is for Latitude integrations with Genesys Cloud. For more information about the integration, see [Latitude Integration with Genesys Cloud](#) in the *Latitude Help*.

### To export a call list to a Genesys Cloud campaign

1. In List Builder, drag and drop conditions into the **Conditions** pane to select the accounts to include in the call list.

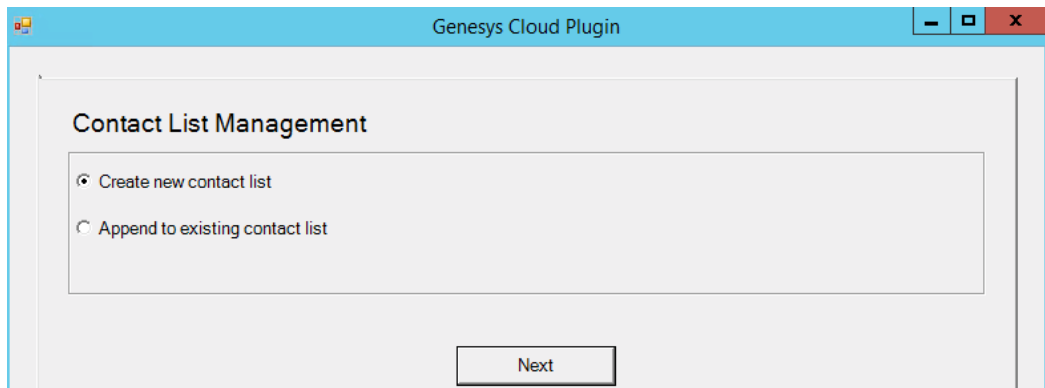

2. In the toolbar, click **Run**. The results appear on the **Preview Numbers** tab.

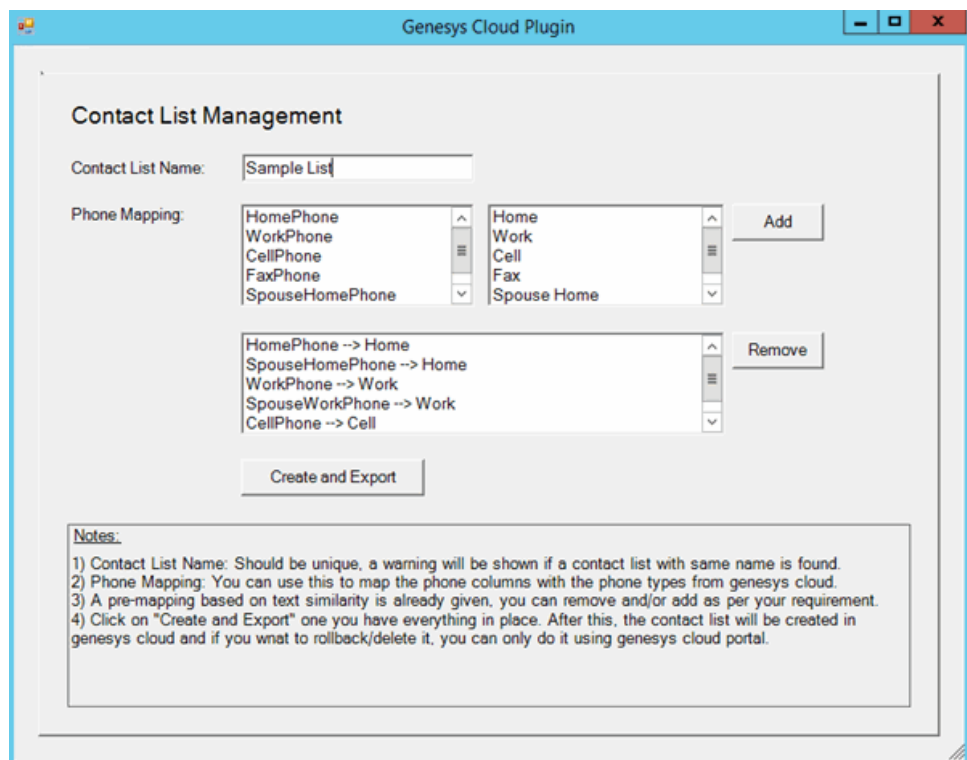

The screenshot shows the 'Latitude List Builder' application window with the 'Preview Numbers' tab selected. The table displays a list of accounts with columns for FileNumber, AccountNumber, Customer, Name, HomePhone, WorkPhone, and CellPhone.

FileNumber	AccountNumber	Customer	Name	HomePhone	WorkPhone	CellPhone
1022	7738973254418	0000001	WILLIAMS, VIOLE	+13172222222		
1333	10003268803	0000001	SLATER, SUSAN	+13173333333		
1444	1231C	0000008	KELLY, MARK C		+13174444444	
1666	784554424555	0000010	FRANK, NORMAN		+13176666666	
1777	775300	0000010	BALLOW, JOHN	+13177777777		
1888	7975457000671708	0000015	Steele, Donald	+17938926322	+12062981009	+17459982030
1958	1145139000004251	0000015	Ellis, Kirk	+11197508574		

3. In the menu bar, click **Export File** and then click **Genesys Cloud**. The **GCConfig** dialog box appears.
4. In the **Contact List Management**, select one option as following:

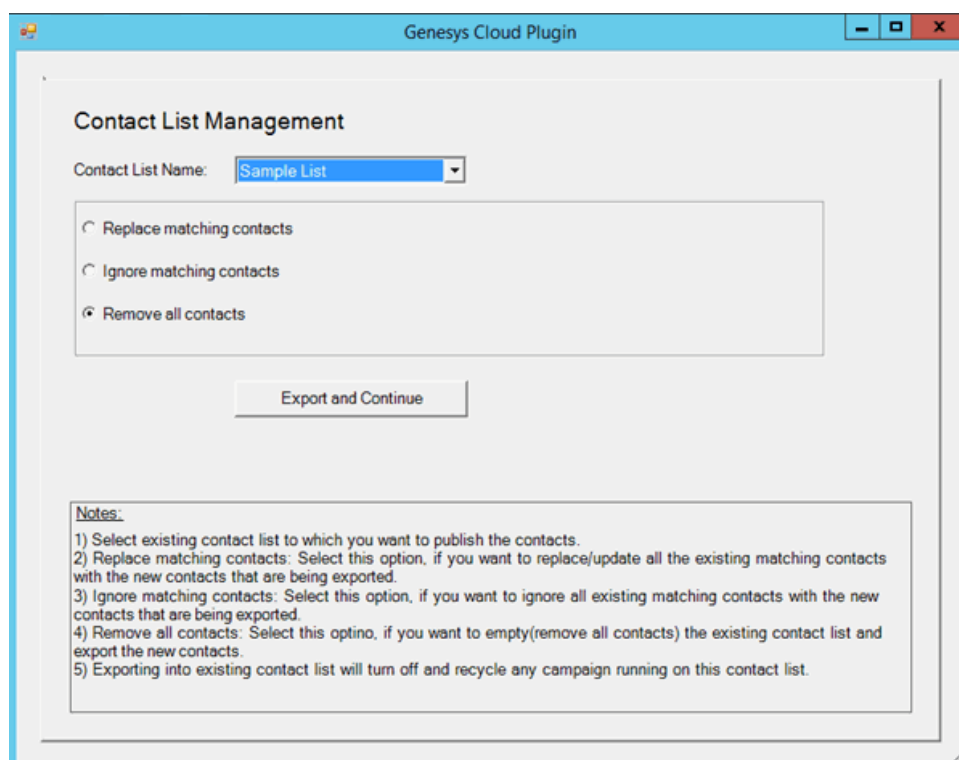

- To create new contacts, select **Create new contact list** option and click **Next**. The **Contact List Management** dialog box appears.

- **Contact List Name:** Unique name to assign to the contact list.
- **Phone Mapping:** Phone number mapping from Latitude to Genesys Cloud.

Complete the information and then click **Create and Export**. The contact list will be created in the Genesys Cloud. The **Campaign Management** dialog box appears.

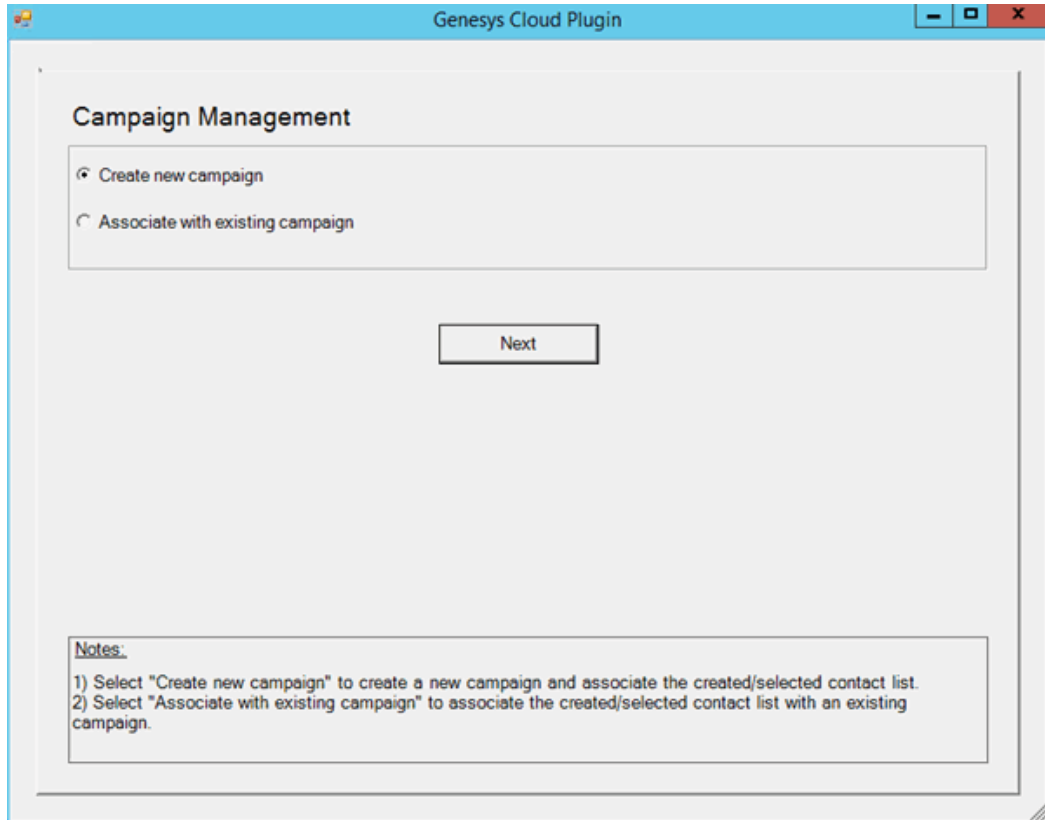

- To modify the existing contacts, select **Append to existing contact list** and click **Next**.

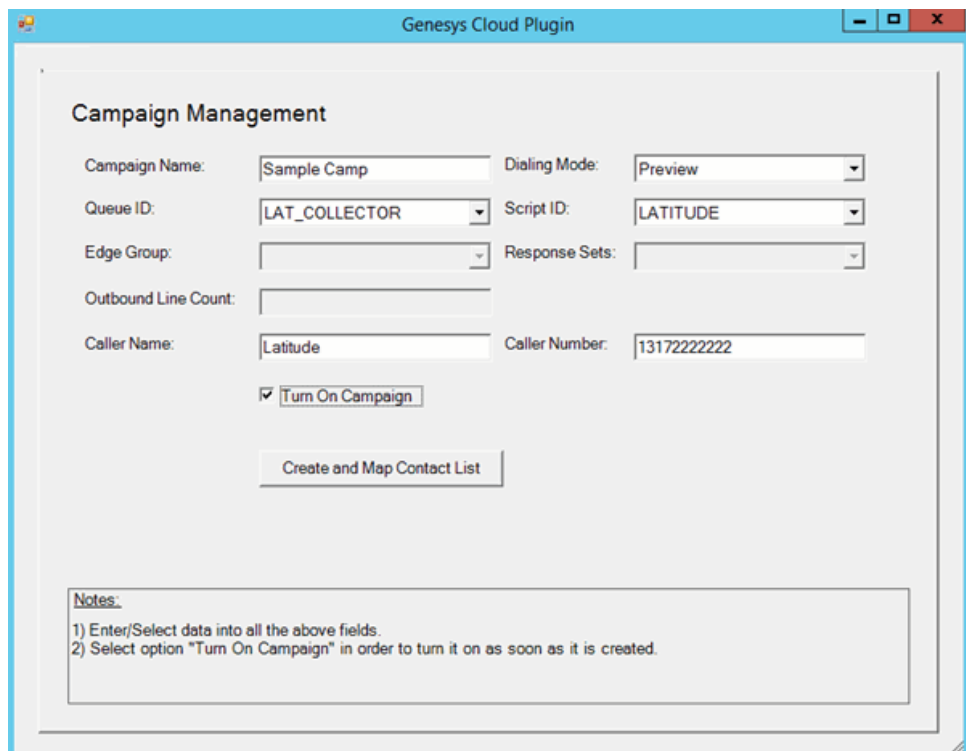

- **Contact List Name:** Existing contact list name to which you want to publish the contacts.
- **Replace existing contacts:** Update/replace all the existing contacts with the new contacts.
- **Leave existing contacts:** Ignoring the existing contacts and updating the list with new contacts.
- **Remove all existing contacts:** Removing all the existing contacts and adding the new contacts.

Select any one above option and then click **Export and Continue**. The **Campaign Management** dialog box appears.

5. In the **Campaign Management**, select one option as following:

- To create new campaign, select **Create new campaign** option and click **Next**.

- **Campaign Name:** Unique name to assign to the campaign.
- **Dialing Mode:** Calling mode for when and how the campaign places calls.

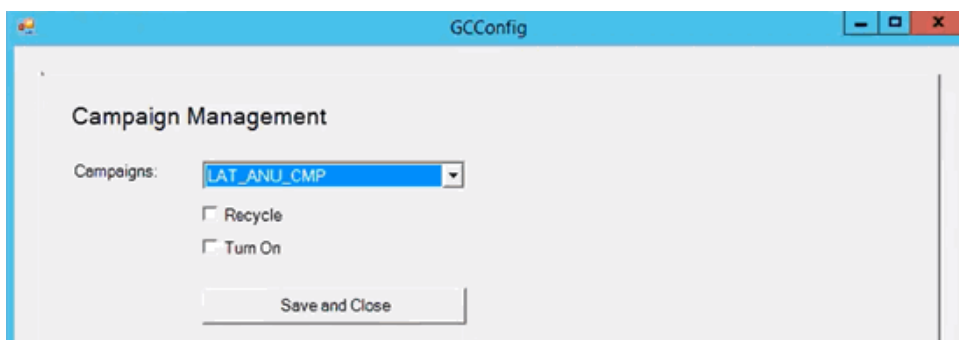

Mode	Description
AgentLess	Places calls and uses call analysis to detect whether a call was answered, whether by live person or voicemail. If answered, the campaign can play a message or transfer the call to an outbound IVR call flow.
Power	Places calls from the campaign list only when an agent is available to take the call.
Predictive	Predicts agent availability and places calls accordingly.
Preview	Presents the agent with information about the targeted party and allows the agent to place the call when ready.
Progressive	Places a call to one party for each available agent to reduce the risk of abandonment.

- **Queue ID:** Code that identifies the Genesys Cloud queue to route the campaign calls through.
- **Script ID:** Code that identifies the Genesys Cloud script for agents to use when processing interactions.
- **Caller Name:** Caller ID name that you want to display to people when the campaign contacts them.
- **Caller Number:** Caller ID phone number that you want to display to people when the campaign contacts them.
- **Phone Mapping:** Phone number mapping from Latitude to Genesys Cloud.
- **Turn on Campaign:** If selected, the campaign is turned on and active. If cleared, the campaign is turned off and inactive.

Complete the information and then click **Create and Map Contact List**. List Builder exports the call list and creates the campaign in Genesys Cloud. For more information, see [View Latitude Contact List and Campaign in Genesys Cloud](#) in the *Latitude Help*.

- To associate the created/selected contact list with the existing campaign, select **Associate with existing campaign** option and click **Next**.

- **Campaigns:** Existing campaign list is displayed. By default, it will display the associated contact list. Selected campaign will be stopped while it is in progress.
- **Recycle:** Recycle the selected campaign after association.
- **Turn On:** Turn on the campaign after association.

Select any one above option and then click **Save and Close**. The **Import Results** dialog box appears.
